alice@learnenvironmentalscience.com · www.linkedin.com www.researchgate.net

I am a qualified Environmental Science teacher and specialise in teaching AQA Environmental Science A Level. My teaching style includes a mixture of direct instruction, student-centred, and inquiry-based learning. I excel at building student capacity and have supported my learners to increase their final grades from E to B, and U to C in as little as three months. I have excellent communication skills and am adept at tailoring educational materials to individual needs and delivering interactive online lessons. I am incredibly passionate about teaching environmental science as I am also an experienced wildlife rehabilitator, environmental conservationist, and scientific researcher.

EXPERIENCE

JANUARY 2020 - PRESENT

ENVIRONMENTAL SCIENCE TEACHER, LEARN ENVIRONMENTAL SCIENCE, ENGLAND

Providing private online tuition to individual learners and small groups studying a range of environmental science courses. My specialist subject is AQA Environmental Science A Level. I support my learners to deepen their subject knowledge; improve their critical thinking and essay writing skills; and develop their exam technique to achieve higher final grades.

SEPTEMBER 2020 – DECEMBER 2021

ANIMAL CARE LECTURER, CITY OF BRISTOL COLLEGE & WEST NOTTINGHAMSHIRE COLLEGE, ENGLAND

Delivered online lectures to level 1, 2 and 3 animal care learners on technical courses as a trainee and supply teacher. Responsible for designing lecture presentations and devising assessment materials suitable for online and classroom delivery. Creating lesson plans and contributing to scheme of work plan development.

JANUARY 2019 – DECEMBER 2019

PROJECT MANAGER, CHIMPANZEE REHABILITATION CENTRE, GAMBIA

Responsible for managing all aspects of the daily project operations as well as the education, community outreach and research programs. Managed a team of 25 staff and all related staff training and development, education activities, human resources, accounting, and stakeholder involvement.

MARCH 2018 – DECEMBER 2018

PROJECT MANAGER, TACUGAMA CHIMPANZEE SANCTUARY, SIERRA LEONE

Responsible for managing daily project operations and developing the organization's education and community outreach programs. Managed a team of 45 staff and was responsible for program planning, education workshop development, community engagement, social media and marketing, partnership development and finance management.

MARCH 2017 – MARCH 2018

PROGRAMS MANAGER, ALTURAS WILDLIFE SANCTUARY, COSTA RICA

Responsible for developing and implementing successful education, volunteer and eco-tourism programs for this hotel and wildlife rescue centre. Designed and developed an education program for school and community groups to engage them in activities and events relating to environmental conservation.

MAY 2016 – MARCH 2017

CAMPAIGNS COORDINATOR, COLOBUS CONSERVATION, KENYA

Responsible for managing and developing corporate relationships, community partnerships, charitable events, and fundraising campaigns.
